

*One, un récepteur 2.1 avec lecteur CD intégré et syntonisateur FM*

"There are products one falls in love with immediately and the *One* from Cambridge Audio is such a product. The compact kit looks great, is very versatile and comes with an iPod dock. What more do you want? ...The *One* is a machine from and for this day and age."

"...Er zijn producten waarop je direct 'verliefd' wordt en de *One* van Cambridge Audio is zo'n product. Het compacte apparaat ziet er gelikt uit, is zeer veelzijdig qua mogelijkheden en wordt compleet geleverd met een docking station voor iPod. Wat wil je méér?... Je kunt daardoor gewoon zeggen dat de *One* een apparaat ván en vóór deze tijd is..."

*Home Entertainment Today, Netherlands June 2009*

**tōne ★★★★★** "Cambridge Audio's designers were set a very stiff task. It's one thing to squeeze so many features into a case this small, finish the whole kit and caboodle beautifully and make it sound like music and not a grey facsimile. It's another thing entirely to do it so well at this price point. I'm stumped as to how they managed it but this little beauty is the real deal."

*Tone, May/June 2009*

"...the sound was powerful but never overbearing with clean detail and plenty of well judged low-end punch." (5 stars)

*BBC Music, April 2009*

"The audio maestros lend their hands to the mini hi-fi with spectacular results..."

*T3 The Gadget Website, April 2009*

"Cambridge Audio's first micro hi-fi is a real gem...With all the features you

need in a smart package, One packs more hi-fi bang for your buck than any other micro system."
