

Fitting

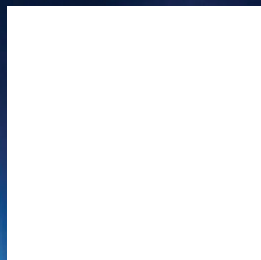

Only use the supplied mounting hardware. The front third fixing is for use on Rega tonearms only.

Using incorrect bolts will destroy the fine wires inside the cartridge.

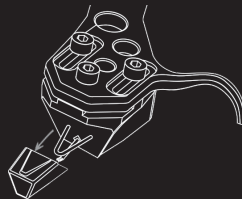

APHETA 2

rega

moving coil cartridge

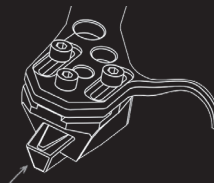

Stylus Guard

Carefully re-fit the stylus guard after each use.

Avoid touching the stylus.

Never attempt to adjust the cantilever.

Specifications

Tracking Pressure 1.75 - 2.00g

Input load impedance 100Ω

Output impedance 10Ω

Nominal output voltage 350μV

Serial Number

Handmade By

Important Information

Avoid touching the stylus or cantilever.

Incorrect mounting hardware will destroy the internal wires.

Always ensure the correct playing weight is set.

For best performance, use a Rega torque wrench.

Always turn off the amplifier when connecting a cartridge.

Ensure the cartridge is wired correctly.

Failure to follow these guidelines may invalidate your warranty.
